

Inspirational Keynote Speaker, Anish Baheti is an award-winning author and a purpose coach to professionals of all walks of life. He's often heard saying that God has been kind in showering him with two skills – *Simplifying the Complex and Inspiring the Uninspired*.

As the Founder and CEO of Train My Brain® (IND) & Concepts Coach® (AUS), Anish has delivered thousands of entertaining, energizing, and engaging sessions. Helping educational institutions, corporate offices, entrepreneurs, teachers, students, and athletes alike, Anish has formed a lasting presence in the world of life improvement. In a world surrounded by complexities, he believes that process of learning for learners should be made *insanely simple*, which in turn, simplifies the process of teaching for teachers.

Anish is passionate about simplifying the complex by creating an experiential learning deck of 52 cards, making meaningful interactions with the audience, and helping them connect the dots, all that makes him a much sought-after speaker. Listeners love his byte-sized practical strategies that they can apply both personally and professionally.

Anish shows each participant how to delve deep into oneself and reconnect with what matters most, so they can lead a life by *design* and not by *default*. His signature program, The Life Deck® (52 cards from 'needs' to 'purpose') captures the journey from self-inquiry to self-realization beautifully and can be implemented by anyone in a self-paced way. The Numbers Deck® is another fun program to teach Accounting to Non-Accountants in less than 90 minutes just by making them play with a deck of 52-Cards.

After spending his early life in India, Anish lived in Australia, becoming familiar with reliable, lasting brands as their success became his own. Not all victories were immediate, however. His life has dealt him many challenges, but now that he can reflect, his growth and success are more rewarding than he had ever imagined. His life's journey has now brought him to a place where he can help others overcome their struggles and have the life they dream of. He has a limitless appetite for helping others maximize their potential and his work continues to touch audiences from every walk of life.

Anish earned his Chartered Accountant degree from ICAI and his MBA from the University of Technology, Sydney. He's also a Certified Life Coach from Australia and a Certified Brain Mapping Practitioner from the UK. Anish's honors include winning the Outstanding Leadership Award in Las Vegas USA in 2022, being voted as one of the winners of the Education and Training Award in Australia, and has been named to BW Education 40Under40 list in 2020. Train My Brain® has also won the Best Companies Award in Dubai UAE in 2022.

When not speaking or inspiring, Anish enjoys long-distance solo-riding, exploring new countries, and engaging with people from different cultures. Oh, did we mention that Anish is born in India but made in Australia? Why does that matter? Well, it means that he knows his roots well, stays authentic, and is quite down-to-earth. He listens more to his heart than his head. He truly believes lesser dancers stumble, better dancers swing. Thankfully, for him, wanderlust syndrome is a glorious thing.

## The Life Deck® – est. 2019

Foreword by Amala Akkineni, Actor

From TEDx Speaker and Coach, Anish Baheti, comes 'The Life Deck' – a collection of 52 cards specifically designed to help you achieve self-awareness while building your emotional intelligence one card at a time.

In today's fast-paced western-influenced world, it's easy to feel lost, purposeless, and generally out of sorts. 'The Life Deck' is a collection of cards – each one with a unique, easy-to-implement concept – crafted to ignite sparks that guide one through the journey of self-discovery and life improvement.

A sufficient stand-alone road map for self-improvement, 'The Life Deck' works especially well when used as a guide for putting into practice the principles of self-awareness elaborated in the companion book by the same name. You can also get access to an on-demand video course of 52-videos to further your experience.
